

## How To Reject The Fulness Of The Gospel

It is actually very easy to do.

Here is how it is done: The Lord God had choice prophets record the doings of their civilizations at great sacrifice spanning over thousands of years. In these records He revealed who He is and what His one true doctrine is.

He had a choice prophet and his son at great sacrifice abridge these records and provide vehicles for the translations of them. He provided angelic ministrations revolved around the translation and publication of the abridgement. He provided a total of 12 witnesses that swore to the truthfulness of the record. He then provided a promise that the Holy Ghost would be given to any honest approach of knowing if the record is not true to anyone so inclined to ask.

He commanded that the recipients receiving the record should rely upon it for all things related to His true church, gospel and Rock.

Then, all that was necessary to reject it was to come up with other revelations and stories, and say they should be what should be relied upon to build up the church, add to the fulness of the gospel with precepts not in the record, and build upon a sandy foundation instead of the true Rock.

Easy-peasy... All we have to do to reject the fulness of the gospel is to rely upon false revelations, fables, and lies instead of the record God gave us.
